Department of Law of George Washington University Is Exceptionally Well Equipped.

FOUR COURSES OPEN TO PROSPECTIVE STUDENTS

Institution Lines Up to All Requirements of the Association of American Law Schools.

Washington University, which will open its doors September 28 for its forty-sixth session, is the oldest law school in Washington, having been established in 1865. Its course of instruction, originally covering but two years, has been gradually expanded and strengthened, following the recommendations of the American Bar Association, until it now requires three years. . The policy of the school is not only to set the standard of legal education in the District of Columbia, but to provide a course of legal instruction equal to that given at Harvard, Columbia, Chi-cago and the other leading law schools cases successfully and creditably. of the United States. In furtherance of subjects are conducted by resident proconnected with practice are under the charge of professors who are actively engaged in the practice and administration of law, either at the bar of on the bench of the District of Columbia.

PROUD OF YEAR'S WORK

STRAYER'S BUSINESS COLLEGE SETS NEW MARK

Students Number More Than 700. Office Practice Course Proves

proud of its year's work, which has just losed. The enrollment has been greater than that of any other year in the history of the school, the number having reached more than 700 students.

The course which has been most popuar is the combined or bookkeeping course, including shorthand and typewriting. The school has long since recognized the fact hat business men, as a rule, prefer stenographers who have a knowledge of accounts, and has accordingly recommended the combined coursé to those who are desirous of equipping themselves for the highest grade positions. The records show that more students have taken the combined course within the past year than any year preceding.

The civil service courses have also proved to be in great demand. One eacher, who has made a special study of the civil service requirements, has devoted most of his time to this branch of the work. In the future this department will be given special attention.

Students Like New Course

uncts to the courses of study for those who wish to become efficient stenograhers and able office assistants. This department, though new, has demonstrated its usefulness by the fact that nearly half of the students passed through this work before attempting positions in business offices. In the future this department will be strengthened and all the latest methods and devices of up-to-date offices in-

dents in such delightful quarters as they now have in the old Masonic Temple, corner of 9th and F streets northwest. The entire top floor of this building has been remodeled, improved, and arranged for the exclusive use of the school. The management prides itself in having the best lighted, ventilated and equipped schoolrooms in the city for teaching the cessible from all parts of the city, and courses are conducted by means of the so-called "case system," the method originated by the late Prof. C. C. Langdell of the Harvard Law School, where cess, and from which it has spread of single and double keyboard machines. HATIONAL CATHEDRAL SCHOOL leading law schools of the United States.

chools in the country for the prepara- gymnasium, and Edgar Priest, choirege, the National Cathedral School for Boys has a commanding position among schools of its kind along the Atlantic

munificent gift of Mrs. Harriet Lane Johnston, a niece of James Buchanan, President of the United States, and head of his household. By her will she bequeathed the sum of \$300,000 to Washingon Cathedral for a school for boys One-half of this fund was directed to be used for the construction of the school building, to be known as the Lane-Johnston building, and the other half to be nvested as an endowment fund and to be known as the Lane-Johnston fund, the ncome of which is to be applied to the maintenance of the school. The family names of herself and her husband are associated with the bequest, made in loving memory of their two sons.

Bishop Satterlee Executed Trust.

It was the intention of the founder to establish a school for boys with a standard equal to that of the best American preparatory schools, and at the same time to provide for the education of the Cathedral choristers.

In the execution of the trust the first Bishop of Washington, the Rt. Rev. Henry Yates Satterlee, appointed a comof the more important schools for boys in this country; they studied and reported upon their construction and administration and drew up specifications for the building and methods of work.

The cornerstone of the Lane-Johnston uilding was laid by the Rt. Hev. William Paret, Bishop of Maryland, on Ascension day, May 9, 1907, the anniversary of Mrs Harriet Lane Johnston's birth. . The school is of stone, built in Gothic style, and is situated in the southwest corner of Cathedral Close on Mount St. Alban, some 400 feet above and overlooking the

Aim of the School.

In outlining the scope of its work the prospectus of the Cathedral School for

Christian manhood and to prepare boys for their work in life. They are taught how to study, and in addition to com-pleting college entrance requirements are trained in habits of industry, application and thoroughness.

"The instruction is carefully planned and sufficiently extensive to prepare a boy for entrance to any university or technical school, or to West Point or Annapolis. Written tests are held from ime to time, and examinations covering the whole subject are required of all a the close of the school year. The length of time required to complete the college preparatory course beginning with the

Cathedral Foundation and is, therefore, qualified to give careful religious and of a strong and sound patriotism."

Excellent Sanitary Arrangements. The school has a boarding department

s in Washington In every way possible that modern

gineering can devise, the health, comfort and happiness of the boys have been provided for. The main assembly room and classrooms are well lighted, and are which requires but ten minutes to renew the sir in the rooms.

A free dispensary service is maintained, the wind in that portion of the city. For several years the annual free service rendered has been fully equivalent to ten thousand (\$10,000) the certificate of the school addiars.
